

Shaun Gregory

Senior Vice President & Chief Technology Officer
Woodside Energy Ltd

Shaun Gregory has a Bachelor of Science (Hons) from the University of Western Australia in Mathematical Geophysics and a Master of Business and Technology from the University of New South Wales.

He started his career with BHP Billiton Petroleum in 1992 before joining Woodside in 1996 where he remains today.

Shaun has held a variety of roles in the industry but has a foundation in the exploration of oil and gas as a geophysicist. A specialist in seismic imaging, Shaun has worked on a variety of technology advancements to improve the imaging of oil and gas, in particular depth migration and 4D time lapse seismic.

Although Perth based for most of his career, Shaun has lived for three years in Houston where he led Woodside's efforts in deepwater exploration, before returning with his wife and family of three children, to corporate headquarters in 2010.

A broad based experience in other parts of oil and gas was obtained with career moves into mergers and acquisitions, corporate strategy, and developments. He has along the way developed strong leadership skills and joined Woodside's executive team in 2013.

Shaun is passionate about technology and innovation and the role they play in enabling and transforming business. In his current role as Senior Vice President and Chief Technology Officer, he oversees Woodside's technology advancements in LNG, data analytics, IT, cognitive computing and selection of development concepts for Woodside's growth projects.

Shaun is a member of Dean's Council for the faculty of Engineering, Computing and Mathematics at UWA and is a Board member of Scitech WA.
